

## Proposal for Monthly Assets

---

Per our discussion yesterday, and in the interest of bringing additional assets to the “Host Success Team” as well as the “Hosts Recruitment Team”, here are some suggested ideas to not only “grow” the number of Hosts, but also help “grow” your existing Host Base.

### Videos:

I have already professionally recorded in-studio video training programs that include “Delivering an Exceptional Customer Experience,” “Transformational Sales,” and “The Great Game of Business.”

If you would like access to those assets to use as Host training and development videos, below are some options to consider:

If they are used “as is,” the fee would be **\$4500** for *all three video training programs* to be housed on your Harvest Hosts Site for two years. (See **Training Video Series** Tab)

To change them out into *Harvest Hosts Branded* videos in the front, middle and back, each series would be an additional **\$500** per video series.

If you would like a *Branded Video Training* programs (fully branded, professionally shot, edited and delivered) the investment would be **\$7500** per video (See **Branded Video Sample** Tab)

### Webinars:

Fee for a *one-hour webinar* that is broadcast live as well as able to be recorded and reused by Harvest Hosts on a resource channel logic- **\$900 per webinar**

### Articles:

If you would like me to contribute a 500–750-word article to your Monthly Hosts Asset program, each article would be **\$500**.

***This approach in pricing gives you maximum flexibility in both offering and investment.***
